

# CRITTERS Patient Treatment Assistance Fund

CPTAF allocates financial resources to women with cancer who are either uninsured or underinsured and may not have the means to pay for offerings that CRITTERS provide. ***We support the fight against women's cancer.\****

This program will enhance the traditional medical care that cancer patients receive by offering funds for prosthetics, wigs, anti-nausea medications, acupuncture, massage therapy, medical co-payments, transportation to treatment, rent assistance, and even dog walkers. Patients will work through their Oncologist's Office or cancer navigators office and Critters For The Cure when applying for funds.
